

EARTH CLAMPS

ECO-MAS

Earth clamps designed for semi-professional use, for general use with small welding machines (transformers or small inverters up to 150A). Cable fixing directly at the point of contact.
STANDARD: BS-638.5

TECHNICAL DATA

Eco-mas 150	-	-	200 A	150 A	16
Eco-mas 200	200 g	170 mm	250 A	200 A	25

Art. Nr.	Descr.	Qt.	Disp.
WP21038	Eco-mas 150	1	B
WP21039	Eco-mas 200	1	A

CLASSIC-MAS

HIGH PERFORMANCE earth clamps realized with attention to details. The model 400 is equipped with copper braid inside while the model 650 with double copper braid with the aim to optimize the conductivity and minimize the electric discharge. Thanks to the very good contacts realization, an high conductivity is always guaranteed. The clamp spring is soft and easy to use. For all professional users. Yellow zinc plated.
STANDARD: BS-638.5

TECHNICAL DATA

Classic-mas 200	280 g	170 mm	250 A	200 A	25
Classic-mas 400	310 g	200 mm	400 A	300 A	35
Classic-mas 650	550 g	210 mm	600 A	500 A	70

Art. Nr.	Descr.	Qt.	Disp.
WP21009	Classic-mas 200 with copper sheet	1	B
53204	Classic-mas 400 with copper braid	1	A
WP21037	Classic-mas 650 with double copper braid	1	A

BRASS-MAS PRO

Earth clamp for professional use. For big welding machines. Cast brass construction.

TECHNICAL DATA

Brass-mas PRO 300	-	-	250 A	200 A	25
Brass-mas PRO 500	-	-	500 A	400 A	50

Art. Nr.	Descr.	Qt.	Disp.
WP21046	Brass-mas PRO 300	1	B
WP21041	Brass-mas PRO 500	1	B
