

Clicker 4 for STM32L4A6VG

PID: MIKROE-6522

Clicker 4 for STM32L4A6VG is a compact development board designed as a complete solution, you can use it to quickly build your own gadgets with unique functionalities.

Specifications

Programming	On-Board
Silicon Vendor	STM
mikroBUS No.	4
Supply Voltage	Battery, USB, External
Category	Clicker 4

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
 ISO 14001: 2015 certification of environmental management system.
 OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
