

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability, ensuring long service life.
- **20 mm Length:** Compact design allows for easy installation in tight spaces.
- **14.04 mm Outside Diameter:** Suitable for a variety of housing dimensions, offering versatility in application.
- **7.98 mm Shaft Diameter:** Compatible with standard shaft sizes, ensuring a secure fit.
- **Plain Bearing Design:** Offers low friction and smooth operation, reducing energy consumption and maintenance needs.

RS PRO 20mm Sintered Bronze Plain Bearing

RS Stock No: 528-265

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from high-quality sintered bronze, it offers excellent durability and resistance to wear, making it ideal for supporting rotating or sliding shafts. The bearing's compact size allows for easy integration into existing systems, providing reliable performance in demanding environments.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	7.98 mm

Mechanical Specifications

Length	20 mm
Material	Sintered Bronze
Outside Diameter	14.04 mm
