

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **20 mm Length:** Ensures compatibility with a wide range of applications, offering flexibility in design.
- **15.04 mm Outside Diameter:** Fits standard housings, simplifying installation.
- **9.98 mm Shaft Diameter:** Designed for precise fit on standard shafts, ensuring smooth operation.

RS PRO Sintered Bronze Plain Bearing, 20 mm Length

RS Stock No: 528-958

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in machinery where low maintenance and durability are crucial, this bearing offers excellent performance in a compact form.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	9.98 mm

Mechanical Specifications

Length	20 mm
Material	Sintered Bronze
Outside Diameter	15.04 mm
