Article Duster Top

Available sizes

200ml, 400ml

Product description / Please note

DUSTER TOP is a microscopically clean, moisture- and oil free, nonflammable compressed gas and especially developed for application where extremely pure cleaning is required, and where liquid solvents are inappropriate. The powerful jet action instantly removes particles from the most inaccessible areas, leaves no residue and is harmless to all materials.

Application

DUSTER TOP removes easily, quickly and safely dust, lint, and oxide particles from all kinds of equipment. Designed and recommended for all types of powerful nonabrasive cleaning of sensitive electronic equipment and components, data processing equipment, personal computers, optical instruments, photographic materials, microscopy and laboratory equipment. Spray directly on parts. For pinpoint application use the attached extension tube. When making failure diagnosis ensures sufficient cooling. Press spray button several times at interval.

Pysical Properties

Odor	none
Density at 25°C	1,20 [g/cm ³]
Exaporation	complete
Material compatibility	very good
Flashpoint	none
Pressure	4,8 bar

Storage / Shelf life

Shelf life is 2 years if stored correctly.

Package after emptying to be disposed via metal scrap.
