

FEATURES

- **Chisel tip shape:** Offers precise control and efficient solder distribution for detailed work.
- **2.4 mm tip width:** Provides a balance between precision and coverage, suitable for a range of soldering tasks.
- **0° tip angle:** Ensures optimal contact with surfaces, enhancing soldering accuracy.
- **10 mm tip length:** Allows for easy access to confined spaces, improving versatility.
- **ANSI-ESD S20.20:2021 compliance:** Ensures electrostatic discharge protection, maintaining safety standards.
- **REACH and RoHS compliant:** Meets environmental and safety regulations, ensuring safe use.

RS PRO 2.4mm Chisel Soldering Iron Tip, 0° Angle

RS Stock No: 631-934

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO Soldering Iron Tip is designed for precision soldering tasks, providing excellent heat transfer and durability. Ideal for use with the 492-303 Soldering Station, this chisel-shaped tip ensures efficient and reliable performance in various soldering applications.

General Specifications

For Use With	492-303 Soldering Station
Product Type	Soldering Iron Tip
Tip Angle	0 °
Tip Series	T990
Tip Shape	Chisel

Approvals

Standards/Approvals	ANSI-ESD S20.20:2021, REACH, RoHS
---------------------	-----------------------------------

Mechanical Specifications

Tip Length	10 mm
Tip Width	2.4 mm
