# **Power Supply Transformers**

The Tempatron power supply transformers are suitable for powering all Tempatron low voltage timers or controllers, from a 110V or 240Vac supply.

Models with a 12Vac or 24Vac secondary are available and can be surface mounted via the two integral mounting holes.

These transformers are resin encapsulated and have a 3VA burden rating enabling them to power other low voltage monitors, alarms or control circuits that require a 12Vac supply.
