

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, suitable for high-load applications.
- **60mm Length:** Provides ample support for shafts, enhancing stability and performance.
- **Outside Diameter of 50.06mm:** Ensures compatibility with a wide range of housings.
- **Shaft Diameter of 39.97mm:** Precisely engineered to fit standard shafts, reducing installation time.
- **Self-Lubricating:** Minimises maintenance requirements by reducing the need for additional lubrication.

RS PRO Sintered Bronze Plain Bearing, 60mm Length

RS Stock No: 594-780

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed to provide reliable and efficient performance in various industrial applications. With a length of 60 mm and an outside diameter of 50.06 mm, it is ideal for supporting rotating shafts, ensuring smooth and low-friction operation.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	39.97 mm

Mechanical Specifications

Length	60 mm
Material	Sintered Bronze
Outside Diameter	50.06 mm
