First Aid

Product Description

The Snips Clothing Cutters are heavy duty scissors designed to remove clothing or other fabric from injured casualties. The durable stainless-steel blade and chunky plastic handles ensure the blades are robust, long lasting and easy to use.

The blades of the scissors are angled, and the lower blade carries a flattened base, allowing the user to safely remove clothing, seatbelts and bandages without causing further injury to the casualty.

Scissors are 15cm in length and are available individually
