

Product Highlights:

- Securely protects files using EncryptStick™ Lite software, an advanced security solution with 256-bit AES encryption
- Easy-to-read, always-on capacity meter displays available storage space
- Speeds up to 4x faster (up to 100MB/s read and 55MB/s write) than standard JumpDrive® USB 2.0 drives*
- High-capacity options to store more files on the go
- Compatible with PC and Mac® systems
- Three-year limited warranty

Capacities:

- 16GB**
(up to 100MB/s read, 20MB/s write)
- 32GB**
(up to 100MB/s read, 30MB/s write)
- 64GB**
(up to 100MB/s read, 55MB/s write)
- 128GB**
(up to 100MB/s read, 55MB/s write)

Secure, High-Speed File Transfer

The Lexar® JumpDrive® M10 Secure USB 3.0 flash drive provides comprehensive data protection and features an easy-to-read, always-on capacity meter. And with speeds up to 4x faster than standard JumpDrive USB 2.0 drives, it allows you to quickly and safely store and transfer files.* JumpDrive M10 Secure is available in 16GB-128GB capacities.

Convenient, Reliable Portable Storage

Securely Protect Files on the Go. Looking to protect personal information, financial records, or other sensitive files on the go? Lexar JumpDrive M10 Secure includes EncryptStick™ Lite software, an advanced security solution with 256-bit AES encryption to help protect your essential files against corruption, loss, and deletion. Easily create a password-protected vault that automatically encrypts data.

Securely Erase Files After Use. For peace of mind that your data is secure, use the File Shredder feature to thoroughly delete files so they can't be recovered.

Check Available Storage Space—at a Glance. Lexar JumpDrive M10 Secure sports an easy-to-read, always-on capacity meter that's powered by the same technology as today's popular e-readers. This convenient meter lets you determine your available storage space at a glance, and maintains the reading even when disconnected.

Transfer Content Faster. With a busy life on the go and so much to do, the last thing you want is to spend extra time waiting for your files to transfer. The Lexar JumpDrive M10 Secure offers speeds up to 4x faster (up to 100MB/s read and 55MB/s write) than standard JumpDrive USB 2.0 drives.* Quickly transfer a 3GB HD video clip in less than 90 seconds—that's 13x faster than the 20 minutes it takes using a standard USB 2.0 drive.**

Store More. The drive is backwards compatible with USB 2.0 devices. And with a range of high-capacity options from 16GB-128GB, you can securely store more of what matters.

Lexar Performance, Quality, Compatibility, and Reliability. All Lexar memory card, card reader, and USB flash drive product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.

Lexar offers a comprehensive line of innovative, award-winning memory products in several categories, including memory cards, card readers, and USB flash drives. With so many options, it's easy to find the right Lexar solution to fit your needs.

Lexar. When Memory Matters.™

*16GB: Up to 4x faster read, 3x faster write when compared to standard JumpDrive USB 2.0 drives using a USB 3.0 port. 32GB-128GB: Up to 4x faster write and read speeds when compared to standard JumpDrive USB 2.0 drives using a USB 3.0 port. Speeds based on internal testing. Actual performance may vary.

**Based on 64GB and 128GB capacities. 3.3GB video, HD 1080p@30fps (46 Mbps) video.

Some of the listed storage capacity is used for formatting and other purposes and is not available for data storage. 1GB equals 1 billion bytes. For more information, go to www.lexar.com/capacity.
