

ISO 11611 :
CLASSE1 A1+A2

PERFORMANCE Mechanical:

- ISO 13688:2013/A1 :2021
- ISO 11611 :2015: classe 2 A1 + A2
- In compliance with EU regulation 2016 / 425, Declaration available on: guyard-sa.com

Description :

Cuff in leather rind tannannée to chrome. Slightly flared shape, tightening by elastic insert in the hem.
Sewn with aromatic polyamide yarn. Length 450 mm, one size.
Sewn on 100% aromatic polyamide yarn.

Recommendations :

Welding, grinding, sanding. According to the class indicated. The garment provides protection against limited flame spread, small and large projections of molten metal, radiant heat and short-term accidental electrical contact.

Protection limits :

Type of protective clothing used during welding and related techniques class 2.
Do not use for handling chemicals or liquids.
For adequate comprehensive protection against the risks encountered by welders, PPE covered by other standards should be worn in addition to protect head, face, hands and feet.

Packaging, care & maintenance, storage :

The garment is packaged to the unit. No special maintenance is recommended. It is advisable to store the products in a place sheltered from light, cool, dry and ventilated.

Before use, visually check that the garment is free of defects, holes, tears and wear. If the user suffers from sun burn-like symptoms, UVB rays pass through. The garment should be repaired or replaced and consideration should be given to using additional, more durable protective layers.

Recycling :

Safe destruction by mechanical shredding or incineration.

Marking :

The CE mark on this jacket signifies compliance with the essential health and safety requirements of European Regulation 2016/425 on personal protective equipment (PPE).

Safety:

We declare that the product does not contain substances at levels known or suspected to have adverse effects on the hygiene or health of the user under foreseeable conditions . Its design does not cause any irritation or gene to the holder.
