

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **1 in Length:** Suitable for applications requiring compact and efficient design.
- **0.75 in Outside Diameter:** Ensures compatibility with a wide range of housings and applications.
- **0.62 in Shaft Diameter:** Designed to fit standard shaft sizes, enhancing versatility.
- **Plain Bearing Design:** Offers smooth operation with minimal noise and vibration.

**RS PRO 1 in Sintered Bronze Plain Bearing,  
0.75 in OD**

RS Stock No: 528-197

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed for high-performance applications requiring reliable and efficient rotational movement. Ideal for use in machinery where low friction and durability are essential, this bearing offers excellent performance in various industrial settings.

## General Specifications

|                |               |
|----------------|---------------|
| Product Type   | Plain Bearing |
| Shaft Diameter | 0.62 in       |

## Mechanical Specifications

|                  |                 |
|------------------|-----------------|
| Length           | 1 in            |
| Material         | Sintered Bronze |
| Outside Diameter | 0.75 in         |
