

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **1.25 in Outside Diameter:** Suitable for a wide range of applications, offering versatility in use.
- **1-3/4 in Length:** Compact design allows for easy integration into existing systems.
- **0.99 in Shaft Diameter Compatibility:** Ensures a precise fit for optimal performance.
- **Plain Bearing Design:** Reduces friction and wear, improving efficiency and machinery lifespan.

RS PRO 1.25 in Plain Bearing, Sintered Bronze

RS Stock No: 528-837

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for use in demanding environments. The bearing's primary benefit is its ability to reduce friction between moving parts, thereby enhancing the lifespan of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.99 in

Mechanical Specifications

Length	1-3/4 in
Material	Sintered Bronze
Outside Diameter	1.25 in
