

Description

The 8MT-50-FT Mixing Tips are single use fine flow static mixer for 2-part low to medium viscosity cartridge systems. The mixer works using stationary elements inside a narrow square tube. This forces the materials to combine as it travels through the length of the mixer and provides a homogenous mix of hardener and resin that can be applied directly onto the targeted area.

Features & Benefits

- These quadro mixing tips are more efficient, giving more thorough mixing in a shorter distance which wastes less material in comparison to helical mixing tips
- These fine flow mixing tips allow greater precision when dispensing
- Simply attach the tip to a compatible dual syringe or dual cartridge end and twist to lock.
- Narrow square tubes with a stationary mixing element
- For 2-part low to medium viscosity cartridge systems
- The square geometry lowers the force needed for dispensing, and provides superior blending
- Single use

Specifications

Part #	# Of Elements	Element Width	Outlet Inner Diameter	Total Length
8MT-50-FT	12	3.2 mm	0.7 mm	63.5 mm

Ordering Information

Part #	Pkg.	Qty.
8MT-50-FT	Bag	5 Tips

Compatible Products

Part #	Pkg.
8329TFF-50ML	Dual Cartridge
8329TFS-50ML	Dual Cartridge
8332-25ML	Dual Syringe
8332-50ML	Dual Cartridge
9201-50ML	Dual Cartridge
