RS Pro Brown Diamond Paste 25µm Grade

Product Details

Synthetic Diamond Paste

Supplied in 5g syringes

Compound and syringe label colour-coded for grade recognition

Diamond Paste, Slurry & Lubricant

Synthetic diamond compounds or slurry can be used for rapid stock removal (90micron) to superfinishing (1/15 micron). The formulation uses De Beers™ synthetic diamonds, micronised into an octahedral shape for consistent long lasting cutting performance. All compounds are oil and water miscible and can be lubricated with RS diamond lubricant. Suitable for use on Ferrous metals, Tungsten Carbide, Steel, Stainless Steel, Synthetic and Natural Precious Stones.

Specifications:

Abrasive Type	Paste
Colour	Brown
Grit Size	25µm
