## Product Description

### RS PRO Tool Backpack with Shoulder Strap and Waterproof Base

RS Pro Backpack is designed for Technicians who prefer a textile tool storage system as an alternative to a toolbox or tool case. This tool backpack combines multiple storage areas into one to create comprehensive tools, Laptop and documents storage system. This tool backpack is well thought out, offers plenty of pockets, holders, additional straps on front to hold more tools and zipped compartments.

The backpack offer a host of additional features that set it apart from typical tool bags. The base is completely waterproof so no fear of damage in wet conditions, open the main compartment and allow the backpack to stand vertically on flat surfaces perfect for Test Equipment, Hand Tools, Power Tools and accessory etc.

Backpack tool bag with wide zipper opening for easy tool access from the centre compartments. Additional side packets to offer more space for all small tools and equipment.

The ultimate key feature is the additional back and shoulder support. This feature, when attached around the waist, adds support and distribute weight more evenly across the back so it's much easier to carry around during longer periods of time.
