

ISO 11611 :2015 :Classe  
2 A1+A2

ISO :11611

## **PERFORMANCE Mechanical:**

- ISO 13688: 2013/ A1: 2021
- ISO 11611: 2015 Classe 2 A1+A2
- In compliance with EU regulation 2016 / 425, Declaration available on: [guyard-sa.com](http://guyard-sa.com)

### **Description :**

Pants in full-grain natural leather, with patch pocket and flap. Belt loops and hand loops. Adjustable with 2 snaps on each side of the waistband. Chrome tanning.

### **Recommendations :**

Welding, grinding, sandblasting. Depending on the class indicated. The garment offers protection against limited flame propagation, small splashes of molten metal, radiant heat and accidental short-term electrical contact.

### **Protection limits :**

Type of protective clothing used during welding and related techniques class 2.  
Not suitable for handling chemicals or liquids.  
This garment must be used properly tightened and closed, and always in combination with a protective jacket, with similar protective performance to that of the pants, to ensure complete coverage of the fitting area.  
For complete protection against the hazards encountered by welders, PPE covered by other standards should be worn in addition, to protect the head, face, hands and feet.

### **Packaging, care & maintenance, storage :**

The garment is packaged individually. No special care is recommended. Store in a cool, dry, well-ventilated place, away from light.

Before re-use, check the garment visually for defects, holes, tears and wear. If the wearer suffers symptoms similar to sunburn, UVB rays are being transmitted. The garment should be repaired or replaced, and additional, more resistant protective layers should be considered.

### **Recycling :**

Safe destruction by mechanical shredding or incineration.

### **Marking :**

The CE mark on this jacket signifies compliance with the essential health and safety requirements of European Regulation 2016/425 on personal protective equipment (PPE).

### **Safety:**

We declare that the product does not contain substances at levels that are known or suspected to have adverse effects on the hygiene or health of the user under foreseeable conditions of use. Its design does not cause any irritation or discomfort to the wearer.
