

FEATURES

- **Sintered Bronze Material:** Provides high wear resistance and durability, reducing the need for frequent replacements.
- **Compact Design:** Fits easily into tight spaces, allowing for versatile application in machinery.
- **Smooth Operation:** Ensures efficient rotational movement, enhancing the performance of equipment.
- **Low Maintenance:** Requires minimal upkeep, saving time and costs in industrial operations.

RS PRO 12 mm Sintered Bronze Plain Bearing

RS Stock No: 528-979

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent wear resistance and durability, making it ideal for use in various industrial settings. The bearing's compact design ensures smooth operation and minimal maintenance.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	17.98 mm

Mechanical Specifications

Length	12 mm
Material	Sintered Bronze
Outside Diameter	22.05 mm
