

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing the need for frequent maintenance.
- **60.09 mm Outer Diameter:** Ensures compatibility with a wide range of machinery and equipment.
- **49.97 mm Shaft Diameter:** Provides a precise fit for optimal performance and reduced vibration.
- **35 mm Length:** Suitable for compact installations where space is limited.

RS PRO Sintered Bronze Plain Bearing, 60.09 mm Outer Diameter

RS Stock No: 518-231

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO sintered bronze plain bearing is designed to provide reliable performance in various industrial applications. Known for its durability and low maintenance, this bearing is ideal for reducing friction between moving parts, enhancing the efficiency and lifespan of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	49.97 mm

Mechanical Specifications

Length	35 mm
Material	Sintered Bronze
Outside Diameter	60.09 mm
