

FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long service life.
- **20 mm Length:** Compact size suitable for tight spaces and precise applications.
- **26.05 mm Outside Diameter:** Ensures compatibility with a wide range of housings and assemblies.
- **19.98 mm Shaft Diameter:** Offers a snug fit for optimal performance and reduced vibration.
- **Low Friction:** Minimises energy loss and heat generation, enhancing efficiency.
- **Self-Lubricating:** Reduces maintenance requirements and extends operational life.

RS PRO 20 mm Sintered Bronze Plain Bearing, 26.05 mm OD

RS Stock No: 528-997

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient performance in rotational and sliding movements. Made from high-quality sintered bronze, it offers excellent durability and low friction, making it ideal for various industrial applications.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	19.98 mm

Mechanical Specifications

Length	20 mm
Material	Sintered Bronze
Outside Diameter	26.05 mm
