

FEATURES

- **Sintered Bronze Material:** Provides high wear resistance and longevity, reducing maintenance needs.
- **40 mm Length:** Suitable for compact installations where space is limited.
- **65.08 mm Outside Diameter:** Ensures compatibility with a wide range of housings.
- **54.97 mm Shaft Diameter:** Designed for precise fitting and optimal performance.
- **Plain Bearing Design:** Offers low friction and smooth rotational movement, enhancing efficiency.

RS PRO 40 mm Sintered Bronze Plain Bearing

RS Stock No: 518-238

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for various industrial uses. Its primary benefit is the ability to support radial loads while maintaining smooth operation.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	54.97 mm

Mechanical Specifications

Length	40 mm
Material	Sintered Bronze
Outside Diameter	65.08 mm
