"The digital camera boom is about innovation for the masses - Lexar Platinum II cards help users leverage all the latest and greatest features!"

— Chris Chute, IDC

High-Capacity Storage with Video Versatility

Lexar offers a comprehensive line of award-winning memory cards in various speeds, formats, and capacities, which include innovative features and valuable free software. Lexar offers speed-rated cards to photo enthusiasts that are individually performance tested before they ship, ensuring quality and performance and providing a higher level of confidence, whether you're taking pictures on an important shoot or snapping family photos on vacation.

The Lexar Platinum II 60x Secure Digital High Capacity (SDHC™) memory card is a high-

capacity, high-speed memory card that's designed for fast picture-taking, full-motion video, or use with other SDHC-enabled devices.* The card is capable of 9MB per second and is available in 4GB capacity.

Unleash Your Creativity

Maximize Your Photo- and Video-Taking Experience. If you've invested in an SDHC-enabled digital or digital SLR camera, it's important to maximize that investment. With the high-capacity, high-speed performance of the Lexar Platinum II SDHC card, you can take a huge number of photos in quick succession using the "burst mode" feature of your camera, as well as fully leverage the video capabilities of your SDHC-enabled point-and-shoot digital camera. Using a Lexar Platinum II SDHC card means you can always capture that perfect moment.

Includes Valuable Extras. ** The Lexar Platinum II SDHC card includes Lexar Image Rescue™ 3 software, which reliably recovers most photo, video, and audio files, even if they've been erased or the card has been corrupted.*** The software can also reformat the card, securely delete images, and report on the overall condition of the card, so you can ensure it's in perfect working order. What's more, you can backup, sync, and share all your valuable photos with Lexar Backup n Sync™ software, powered by Sharpcast. And extend your picture-taking with the ability to edit, organize, and share your photos using Corel® Snapfire™ Plus SE software. All software is available for free download with purchase of the card. The Lexar Platinum II SDHC card also includes a free SDHC reader to ensure you'll have ultimate compatibility with host devices.

One Card Does it All. The Lexar Platinum II SDHC card offers the ultimate in versatility. It's the perfect place to save and store loads of vacation photos, as well as video clips from last weekend's soccer game. It gives you the capacity and power to rapidly shoot a multitude of photos, and then allows you to process and share those photos in fun and creative ways. The card also has a built-in erasure prevention switch to ensure that your files can never be accidentally deleted or overwritten. Complete with innovative features and valuable free software, the versatile Lexar Platinum II 60x SDHC card is the perfect all-in-one solution to all your storage needs.

Lexar Platinum II cards are sold in Europe as Lexar Premium cards.

*SDHC cards are designed for use in SDHC-enabled devices and are not backwards compatible with standard SD legacy devices.

**Software offerings may vary depending on product ship date and store. Please check product packaging for included software offerings.

***Image or other data recovery is not 100% guaranteed.

DISCLAIMERS:

The Lexar "x" speed rating describes minimum write speed capability where x=150KB/sec sustained write speed.

Actual usable memory capacity may vary. 1MB equals 1 million bytes; 1GB equals 1 billion bytes.
