

Datasheet

RS Black Hook and Loop Cable Tie, 150mm x 20 mm

RS Stock 285-4562

Dimensions: (mm)

Specifications

- Tensile strength is 420gm/ cm² (6.0 PSI) min
- Peel strength is 180gm/cm² (1.0 pounds per inch width) min
- Shear strength is 560gm/cm² (0.8 PSI) minimum
- Note that shear strength doubles when closure applied around a curve
- Cycle life is 10,000 openings & closings
- Completely washable and dry cleanable
- Shrinkage maximum 4%
- Can be sterilised or autoclaved
- Melting temperature 204 °C
- Most oils do not affect closure strength
- Retains 50% closure strength water, 100% when dried
- Acids will cause deterioration
- Vibrations increase closure strength
- Closure strength increases when pressure applied
